

04.743 Airspeed limitations. Maximum operation limitations will be incorporated in the aircraft certificate and will specify the indicated airspeeds which shall not be exceeded in level and climbing flight (§ 04.111), in gliding and diving flight, and with flaps extended. The values in gliding flight and with flaps extended will be 10 percent less than the corresponding maximum airspeeds attained in flight tests in accordance with § 04.722.

04.744 Powerplant limitations. Maximum operational limitations will be incorporated
