PRESS RELEASE

**Dateline: February 2011
Lyons, Wisconsin**

Newly Approved for production Taylorcraft Right Hand Elevator and Rudder

ATTENTION: TAYLORCRAFT OWNERS!

Aero Fabricators, the Manufacturing Division of The Wag-Aero Group, now has FAA approvals to manufacture two new Taylorcraft parts. NEW RH Elevator DA420 for the Taylorcraft BC12D aircraft and it is a direct replacement for OEM P/N D-A420 and Rudder DA410 for the Taylorcraft BC12D aircraft and is a direct replacement for OEM P/N D-A410. Both are fabricated to current aviation material standards using new rigid fixturing to maintain drawing specifications. NOTE: These are manufactured primed and uncovered.

Also waiting for final FAA Approval are Taylorcraft Stabilizer OEM P/N D-A419 and LH Elevator OEM P/N D-A411.

To order please call our friendly and knowledgeable Customer Service Associates at 1-800-558-6868 or if you have any questions ask for Tom (ext. 124). Our Technical Support Staff is ready to assist you with all of your parts needs and questions. In addition, we continue to serve Aircraft Owners, Mechanics, Fixed Base Operators and the nation's top flight schools.

The Wag-Aero catalog has extensive lines of products and services for all of your aviation needs. There are five easy ways to order. CALL 1-800-558-6868, FAX 262-763-7595, e-mail wagaero-sales@wagaero.com, visit onlinecatalog.wagaero.com or store.wagaero.com.
